

LandsonGlass

the leaders
in custom
architectural
& stock glass

Sydney | Melbourne | Auckland | Qingdao

We take pride in our capacity to deliver high-volume, customised Stock Products or Custom Architectural Products to suit the most demanding applications and energy efficiency requirements.

The Australian and New Zealand-based Landson Glass team is one of the most experienced in the Southern Hemisphere. Our collective experience and continued investment in our manufacturing capability, mean our clients can Import with Confidence and peace of mind.

The future of glass supply

Landson Glass, a long established and highly trusted glass importer, has been servicing the glass and glazing industries in Australia and New Zealand for over 14 years. As a premium glass processing and manufacturing company, Landson Glass' extensive range of products feature widely throughout Australasia's residential and commercial buildings - from architect-designed dwellings to landmark commercial projects.

Landson Glass Today

The Landson Glass business model is unique: Australian owned factories in China creating high-quality products exclusively for Australian and New Zealand customers. This successful, innovative model relies on an experienced Australian and New Zealand management team to look after local customers, as well as sophisticated and efficient manufacturing facilities in Qingdao, China. As our loyal customers understand, all Landson Glass processes are based on principles of global best practice.

Our Chinese manufacturing facilities are elite processing plants, complete with stringent quality controls. Designed to expedite either one-off orders of custom design or fast bulk runs, the plants are configured to meet the 'real world' needs of our customers. In Australia and New Zealand, our customer service and distribution systems are tailored to the local markets from boutique residential to high-rise commercial structures.

Associated Memberships & Certifications

Landson Glass products have all been certified by SAI Global and are fully compliant with both Australian and New Zealand Standards. Landson Glass are a long standing member of the National and State Glazing Associations (AGGA, GGANSW, GGAV) and a consistent supporter of the GAAQ.

Stock Products

At Landson Glass we supply an extensive range of quality stock glass products to meet our many customers' diverse needs. We supply a full spectrum of stock products, including silver, laminate, toughened and insulated glass units. Landson Glass' renowned commitment to quality is evident in all our stock products.

We value our reputation in being a reliable and responsive partner to the Australian and New Zealand glass industries.

Custom Architectural Products

Landson Glass is committed to supplying the Australian and New Zealand glass industries with the most innovative glazing solutions to meet the most challenging contemporary building designs. Be it to achieve exceptional energy performance or structural glazing requirements, Landson Glass will manufacture or source specific products customised for individual projects. Landson Glass offers unrivalled flexibility to meet any requirements.

Mirror

Landson Glass' mirror is world class. It is a high quality silver mirror, produced to the strictest and highest standards. Internationally recognised for its superior quality, Landson Glass silver mirror is synonymous with quality and durability.

Laminated

Landson Glass produces high quality laminated products using two state of the art laminating lines. Climate controlled facilities produce world class laminated safety glass.

Toughened

Landson Glass produces toughened safety glass to internationally recognised standards. Producing superior quality, very flat toughened glass is crucial and Landson Glass is highly sought after to supply it's tempered safety glass. Heat strengthened and heat soaked options are also available.

Insulated Glass Units

Landson Glass produces quality Insulated Glass Units (IGUs) for the domestic and commercial window and glazing industries. The IGUs can be either single or dual sealed to your requirements. Complimenting local supply options perfectly, Landson Glass IGUs are of exceptional quality and durability.

Insulated Glass Units

When energy efficiency is demanded, let Landson Glass find a insulated glass unit solution to suit. Insulated glass units provide energy efficiency, noise protection, and amazing year-round comfort. Whether it be oversized panels, specialist gasses and spacer assemblies, point fixing readiness or soft coat Low-E coatings, Landson Glass can present a solution.

Custom Laminates

Landson Glass manufactures and sources a broad range of certified, architectural, custom laminated glass products. A network of certified manufacturers produces specialist products to complement our in-house production. Oversized jumbo panels, complex shapes, intricate frit designs, specialised interlayer materials and detailed processing requirements are not a problem for Landson Glass.

Our clients often need specific products customised for individual projects. Coupled with the ability to mix containers with bulk stock products, Landson Glass offers unrivalled flexibility to meet any requirement.
